Information and Communication Technology Agency (ICTA) of Sri Lanka is the single apex body involved in ICT policy and direction for the nation. Wholly owned by the Government of Sri Lanka, ICTA is the implementing organization of the e-Sri Lanka Initiative. Major donors including the World Bank will be funding a number of the Agency's initiatives.

Key Speakers : eAsia 2008

eAsia 2008 will feature a wide gamut of eminent speakers in its agenda, who will discuss and expatiate on a vast range of ICT related issues, which concern Asia and the global community at large and contribute to strengthening the role of ICT in various verticals and development domains. They will include key resource persons from the government, senior executives and leaders from the IT industry, and high level representatives from the civil society, academia and the private sector from all across Asia and beyond.

eAsia aims to create a strong platform to bring together the vision of these leaders from the ICT community and provide a forum for them to share the best practices in development, and exchange knowledge and national perspectives, that will shape the future of global ICT development.
